\*Nuit blanche (noo • é blansh) or "The Sleepless Night" is a particular evening in Paris when places  
such as museums and art galleries, not generally open at night, are host to artistic exhibitions,  
performances & readings. In the spirit of its originators, this Sleepless Night will be dedicated to  
those who like to stroll, dream, discover, and open themselves to the allure of the evening — to  
stay up late and greet the dawn. Dress for the occasion and prepare to be entertained!
